Eradicate Hair

is the most satisfactory depilatory I have ever used, and I have used all that I've seen advertised. Everything in connection with **Eradicate Hair** is treated confidentially so that we cannot tell you who said this but we can tell you that the statement was made by a customer for **Eradicate Hair**. We guarantee it absolutely harmless. It does the work by gradually killing the roots. It leaves the skin as smooth and healthy as a baby's.

A step forward in world-wide tem-
perance reform has been taken in
Germany recently when a conference
was held in Berlin to discuss and con-
sider wages and means of educating
the children of the Fatherland in
Temperance. Even Germany, whose
favourite beverage is beer, recognizes
the danger to citizenship that lies in
this habit. The object of the con-
ference was to prepare the ground for
future temperance legislation, and as
speakers it had secured the best men
and women speakers for the occasion.
The subject was well discussed from
every point of view and the methods
of other lands compared in a careful,
scientific manner. A pertinent feature
of the conference was the expressed
hope that the mothers of Germany
would help in the work since it was a
recognized fact that women were the
greatest power in reform. This re-
cognition comes from a country which
has been credited with relegating
woman to the sphere of housekeeper
and cook. Germany may yet over-
reach England in Temperance Reform.

SPRING 1913

We are pleased to announce that we have been appointed sole representatives in Napanee for the House of Hobberlin, tailors to the Canadian gentleman. This firm we have been informed employs a most skillful and artistic designer to whom they pay the modest sum of \$8000 per annum. Their sample outfit is the most elaborate we have ever seen from any house doing a special order business. We KNOW their Cloths are of a high order and the range embraces every line that a good dresser could desire. They absolutely guarantee every garment they turn out to be perfect in fit and workmanship. Money back if not satisfactory, and no grumbling. What more could any man ask. We would be delighted to show their range of samples to any man contemplating the purchase of a new suit. If you order and the garments are not entirely satisfactory to YOU it will cost you nothing whatever but the time you spent in making your selection. We know of no fairer way of doing business.

Samples are now ready for inspection at
